## UTeM Digitalization Roadmap Let Digitalization Lead The Way

Profesor Dr. Mohd Khanapi Bin Abd Ghani  
Ketua Pegawai Maklumat (CIO)

# UNDISPUTABLE FACTS \*

## Technology Adaptation

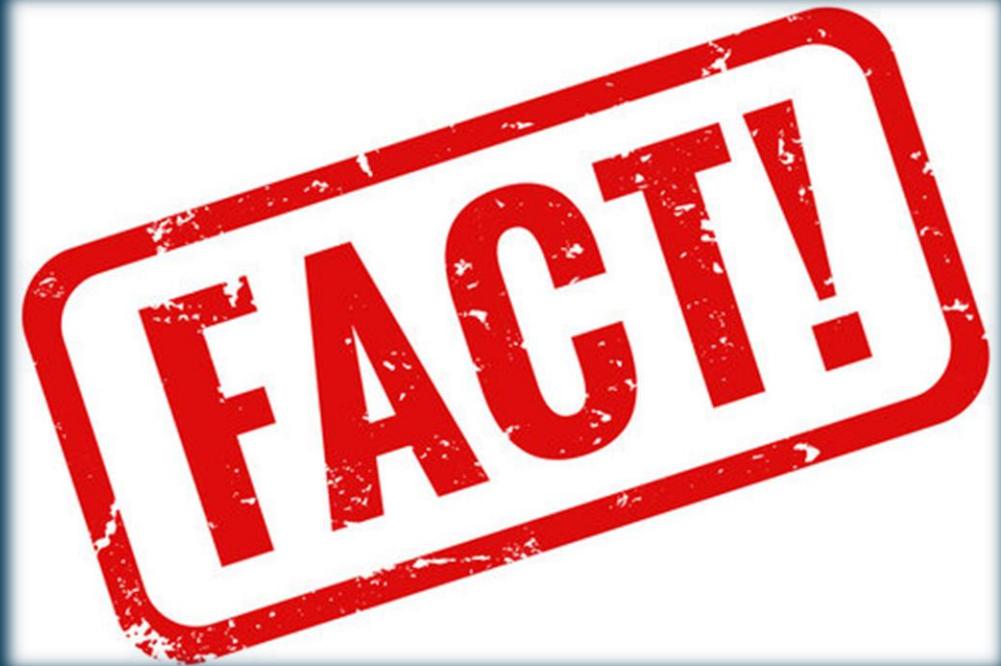

Technology is the short term solutions to reduce operating expenditure of a University through simplification of process, automation and other digitalization program.

## Strategic Review of Support Services

Strategic and long term review of the academic support services is the long term solutions for cost efficiency.

\*Based on the research done by IIUM

# TECHNOLOGY IS THE KEY TO ACHIEVE FINANCIAL SUSTAINABILITY

But what kind of technology that Universities Need ?

**Value delivered > Solution cost**

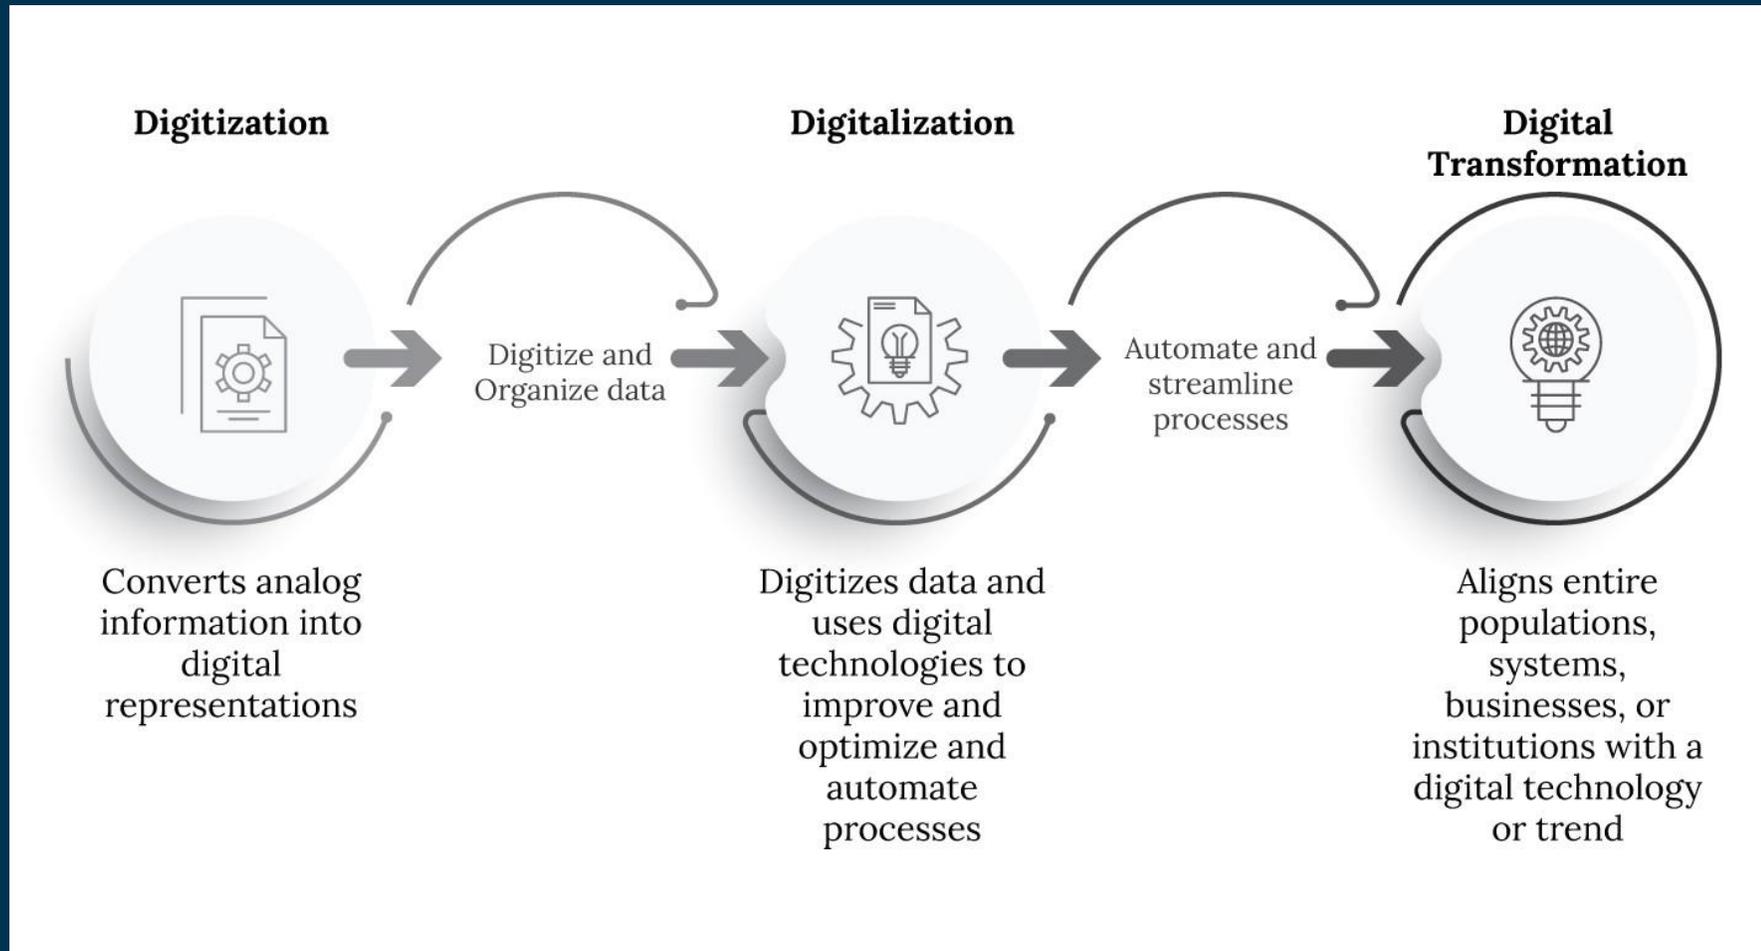

**Transformational > Incremental**

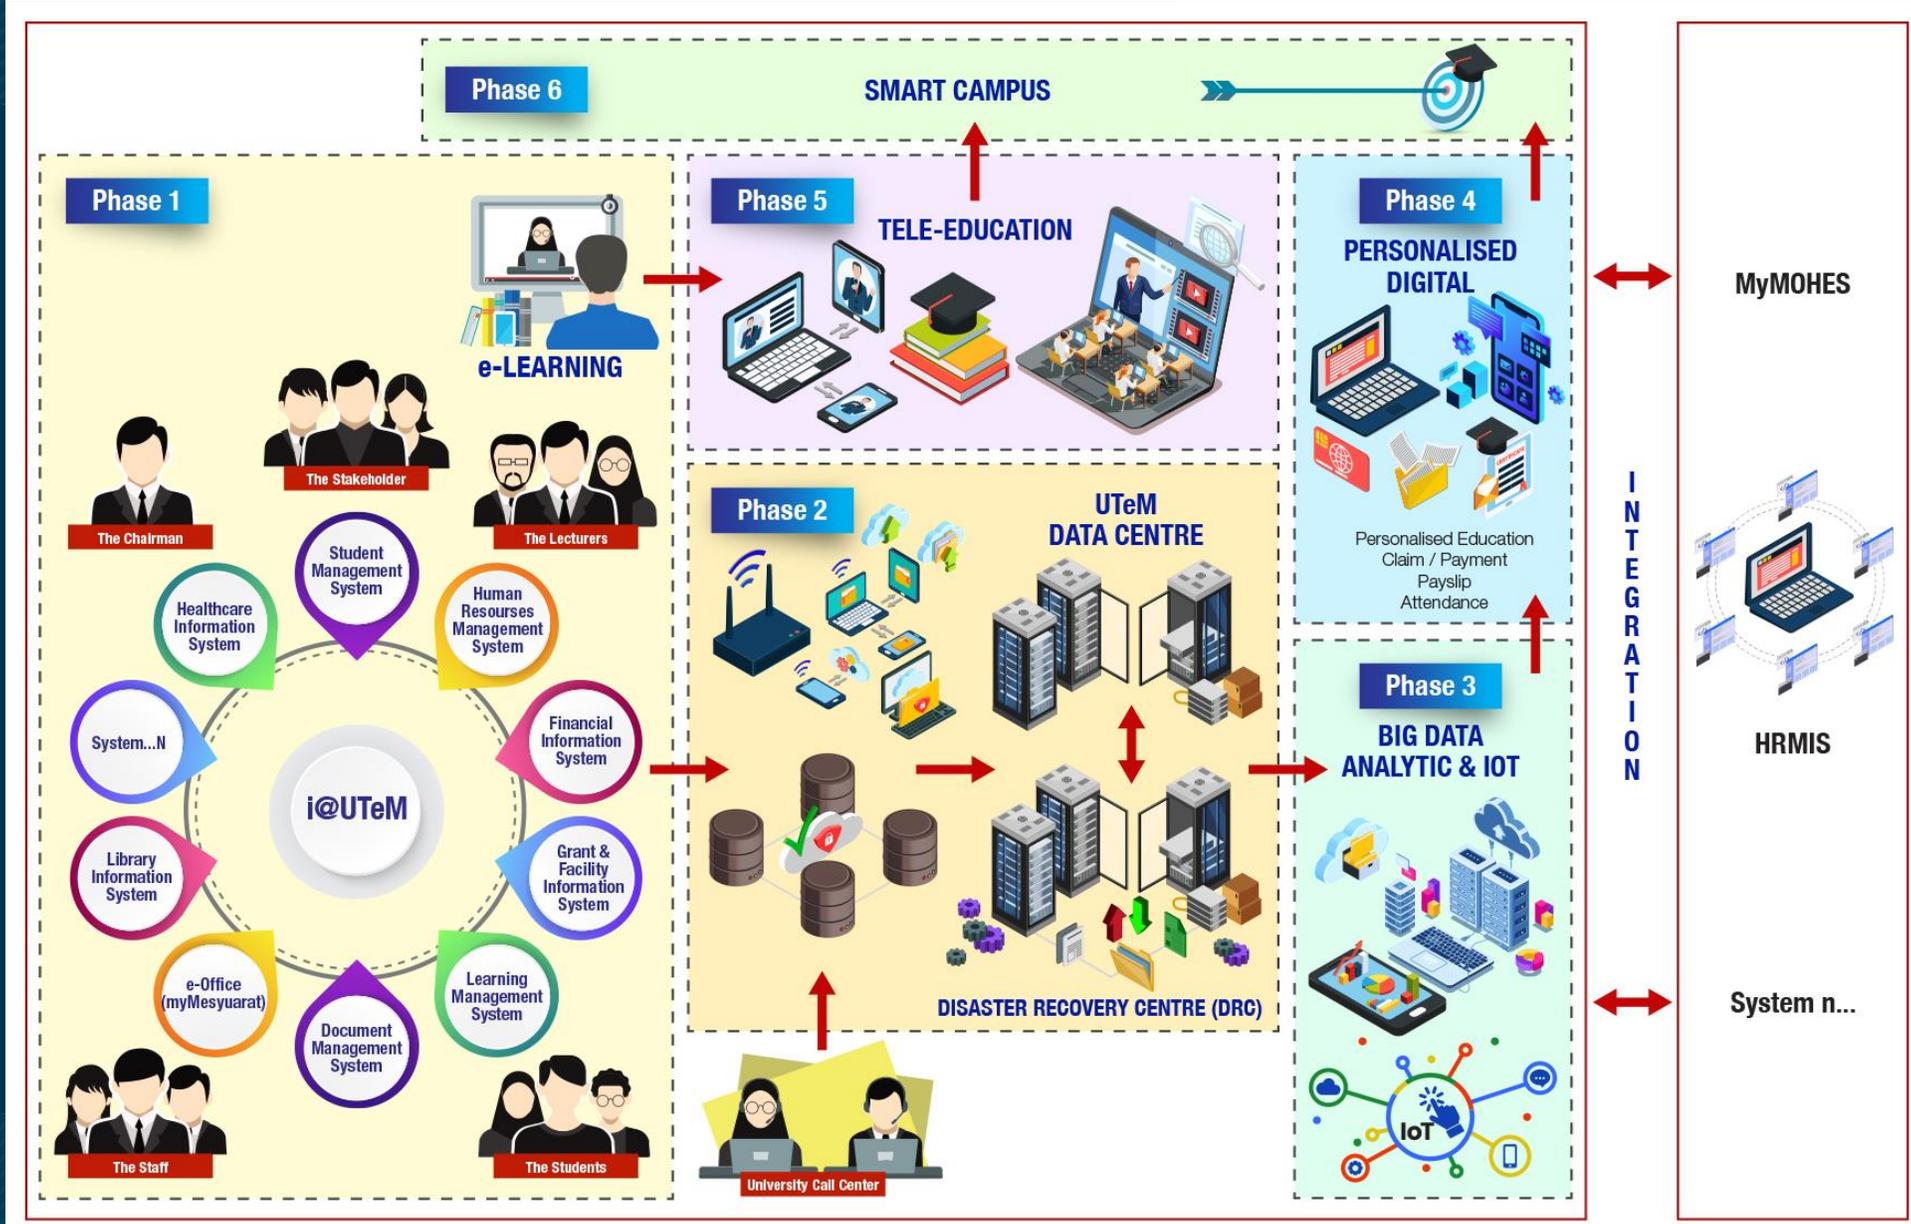

A new model of solutions offerings may need to be explored and taken advantage of to ensure that it benefits the University.

The value it creates must be higher than the cost and it must be transformational in nature.
